## General Fund Analysis

It also contains the projected revenue from July 1, 2021 to June 30, 2022, (\$ 13,507,157.00); the projected expenditure level (\$ 13,224,293.00) and the projected ending balance (\$ 1,115,780.75) on June 30, 2022.
2. April 2022 Actual - This column represents actual activity for the month of April 2022.
3. 2021-22 Fiscal Y-T-D - This column represents actual activity from the 1<sup>st</sup> of July, 2021 through the end of April 2022.

## SUMMARY

This financial report represents projections prepared from the most recent November of 2021 five year forecast for fiscal year 2021-2022. The annual projections for fiscal year 2021-22 have been projected out on a monthly basis for July of 2021 through June of 2022 utilizing the most current information and historical collection and expenditure trends from previous fiscal years. If variances occur between the projected amounts for the month and the actual, the rationale behind those differences will be explained.

The comparison of year-to-date activity from July of 2021 to April of 2022 can be found on page 7 of the financial analysis. The timing of revenue being received and expenses being paid throughout the year can create variances throughout this report. We will attempt to explain those significant variances when they occur within the summaries.

## SUMMARY

FINALLY .....we received our first income tax allocation. It's seems like it's been a year since we passed that levy. Wait, it was a year ago. I've requested an updated estimate for our annual collection but they are in the process of updating all of that information, from the April 18<sup>th</sup> filing deadline. We had originally projected our April 2022 collection to be \$ 104,774. That was 5.9% of the previous annual estimate of 1,774,832. Districts across the state that have income tax levies have been seeing an average of an eleven (11%) percent annual growth rate. It will take some time for the income tax cash flow to settle in so we may see some variations over the next year to eighteen months.

We are still transitioning and we continue to experience adjustments with the state funding formula. I'm not sure how many more changes we will see before we have totally converted. It will be a challenge projecting our future revenue when it comes to our five year forecast update.

I am constantly monitoring and reviewing our projections and spending plan. This includes revenue and expenditures and how these changes will affect our overall funding for the immediate and long-term future. I am happy with what we have projected and where we stand with actual collections. Despite some significant variances, due to the funding formula adjustments, our annual variance continues to be immaterial at 1.09%.

## SUMMARY

Salaries are running a little higher than what we projected for April. We did pay the first half of our spring supplemental contracts. That would have been roughly \$ 26,000. Sub costs have increased and will continue to increase as we get closer to the end of the year. The variance on the fringes will continue to get larger. We have not adjusted the estimate since November and we experienced a health insurance rate increase in January. The projections will change for the next five months. As I mentioned last month, we have converted from the 26 bi-weekly pays to 24 semi-month pay system so we will see an increase as a result of that as well

I mentioned last month that our purchased services line item was victimized by the state foundation changes. This is why you continue to see the variance that you do on this line item.

Our revenue and spending patterns continue to be consistent with previous years. We will continue to review and monitor our cash flow projections for the rest of the year. With limited resources for the remaining three months of the year, we will have to remain prudent with our spending to insure we do not exhaust what cash we have available. The variance on the total expenses remains at less than one (.55%) percent.
